Federal and State Perspectives Conference**

Aaron Simonton

V. 2009 meeting schedule and next meeting's agenda

- **August 18, 1-3**
- **October 20, 1-3**
- **December 15, 1-3**

**Michigan Long Term Care Supports and Services Commission
Health Promotion, Chronic Care Management and Caregiver Support Work Group**

Meeting Minutes

June 16, 2009

1-3 pm

MDRC Conference Room

PRESENT: RoAnne Chaney, Nora Barkey, Sarah Szwejda, Sherri King, Sara Duris, SuAnne McBrien Ellen Weaver, Pamela McNabb, Judi Lyles, Tina Abbate-Marzolf, Ellen Sugrue Hyman, Damita Zweiback

Reminder about Ice Cream Social at MDRC -June 22 celebrating the 10th anniversary of the Olmstead Supreme Court Decision.

Minutes from February OK; April meeting was canceled due to the passing of RoAnne's mother.

T-CARE update-all trainings are full and going really well.

RoAnne is going to try to get Peter DeGuirre to present on the BFSR for the August meeting. The Health Status Questionnaire (handout) was discussed.

DRAFT Resolution Discussion:

4th paragraph changes-take out the word “only” and instead use “generally” RoAnne will make changes and send out to group before it is submitted to the Commission which meets in July.

Handouts were distributed on MI OSA Operating Standards for Service Programs-1) Home Injury Control B-3 and 2) PERS (Personal Emergency Response System) B-9. Tina discussed using an environmental scan to see who does what related to AT. A suggestion was made to have OSA survey the AAAs and councils. Sherri suggested modifying B-9 to expand definition as assistive technology.

Logic Model Discussion:

Objective 1:

RoAnne reported the Task Force originally recommended a statewide stakeholder group, but in reality this workgroup serves the function.

Responsible for/Time line-This workgroup with help from the OLTCSS is responsible for gathering data and information from Public Health and AAAs. The first indicator of Objective 1 may be hard to gather. A suggestion was made to track the # of AAAs having goals and objectives regarding health and wellness promotion plans.

Objective 2

Add “to” before caregivers.

Discussion of adding Savvy; T-Care versus Savvy and Reach is another model of caregiver assessment and support.

Discussion on how to identify caregiver stress

Discussion of nursing facility placements

There is data on caregivers from the BRFs for 2008 and from the OSA Dan Dozema data.

The last indicator desired regarding the # of NF admissions due to caregiver stress and illness we believe is not tracked even though we know it is happening. That indicator may have to be removed.

Objective 3

Remove reference to Wagner Model in 1st and 3rd indicators.

Judi discussed taking PATH program to CILs as part of the CDC grant. She will put something together some data and report for the August meeting.

Objective 4

Data for 1st indicator is a challenge for all the LTCSS HCBS programs: Home Help, Care Management, MI Choice, PDS, MRS

Talk with Dan Dozema from OSA, Valerie Sanford from MDCH, Bob Orme from the OLTCSS Pam will talk to Bob Orme and let RoAnne know about data elements related to AT.

Data is generally from 2008.

We need to talk to Ellen Speckman-Randall and her Housing group about tracking the number of affordable accessible housing in Michigan.

Damita gave an update on the Healthy Aging Project 2009 Grants-Oral Health Initiative

Next Meeting-August 18th from 1-3 pm. Our agenda will be Peter DeGuire's BRFs data on caregiving, a report on OSA's priorities for health and wellness and a report from Judi and Sherri regarding PATH progress and data. We may be looking at changing the regular meeting schedule in the next fiscal year.
